

CS408 Software Testing - Spring 2018

Jimmy Carlson, Janka Gál, Puja Mittal, Jason Shipp, David Worley

Black Box Testing: “¼ Cup” (Team 16)

Defect No.	Defect	Description	Defect Severity	Test Case No. OR Description
1	Menu keyboard doesn't collapse	When opening the sidebar menu, the keyboard does not collapse.	3	Open the sidebar menu
2	Cannot input last name	Email sign in asks for First and Last name but only allows input of the First name.	3	#2: Login-Registration Screen Login-Proceed 001 / Attempt to register with an email
3	Logout crashes app	The app does not exit/logout gracefully when clicking "Logout." A toast message pops up saying the app has stopped working and crashes out of the app.	1	#5: My-Lists Screen My-Lists 001
4	First time adding time to list	The first time you ever use the app, when it loads to the "My Lists" screen and you type something into the "Add Item"	1	#6: List Screen List 001

		bar, the app crashes upon trying to add to the list.		
5	My list emoji search	If you type an emoji into the my lists search bar, the app crashes.	1	#6: List Screen List 007
6	Create new list	Each time you make a new list, it automatically has an item in it called "Test."	3	#5: My-Lists Screen My-Lists 005
7	New list title error message is wrong	When making a new list title, the error message says "The title you entered must be 1 character or more!" But it prevents you from creating anything less than 3 characters longer.	3	#5: My-Lists Screen My-Lists 005
8	New list title	Cannot create new list of length 1 even though the toast error says lists must be of length 1 character or more.	2	#5: My-Lists Screen My-Lists 005

9	Adding items to list incorrect order	Adding something after the list already has 4 items adds the item to the top and is not displayed until the user scrolls down which, in practice, looks like the item was not added.	2	#6: List Screen List 001
10	Searching for recipes	The documentation says that searching for a recipe keyword will return 20 recipe results, but 25 are actually returned.	3	#7: Search Recipes Search 002
11	Recipe search no result	There is supposed to be a toast stating "HTTP Error" if the search has no results, but nothing happens.	2	#7: Search Recipes Search 005 and 006
12	No error for too many API calls	When there are too many API calls in a minute, there is no toast message relating to too many API calls.	2	#7: Search Recipes Search 007

13	Search gets stuck	Occasionally it gets stuck in a loading loop when searching for a recipe, but no messages about it or timeout.	1	#7: Search Recipes Search 002
14	Maxing out API calls in a minute	It is possible to make more than 5 API calls per minute without any problems but still times out after a certain number and no error message is sent.	2	#7: Search Recipes Search 007
15	Empty field for recipe search	When searching for recipes, there is no “Please enter a search query” message when a user attempts to enter a blank search.	2	#7: Search Recipes Search 001
16	Problems with adding recipes to lists	You can only add Recipes to the first 6 lists you’ve made.	1	Create 7 lists. Attempt to add a recipe to the 7th list.
17	Any list made after a 6th list cannot have recipes added to them unless they are created after the first 6 have been deleted.	(Refer to previous bug for context) If you have 7 lists and attempt to delete older lists in order to make the 7th list one of the first 6	1	Create 7 lists. Attempt to add a recipe to the 7th list. Then attempt to delete the first 6 lists in order for the 7th list to be selectable. (It still isn’t). Then

		choices, that unshown list still is not selectable, but any list created after it shows up.		create a new list, and you will be able to add the Recipe to it, but not the original 7th list.
18	Add Recipe Items to List	Clicking 'Add Recipe' on the search result for a recipe results in a crash	2	#8: Add Recipe, Recipe 001
19	Add Recipe Items to List	Not all ingredients are added when you add ingredients from a recipe to a list	1	#8: Add Recipe, Recipe 002
20	Sorting Categories	The uncategorized results should be listed at the bottom, but they are listed above the categorized items.	3	Assign categories to items in a list. All items without a category label are above the categorized items.
